PROFILE

I am studying Electrical Engineering, but I also have strong knowledge of computers and am interested in software development, including both Front-end and Back-end, as well as UX/UI design. During my co-op project, I developed Full Stack applications for both Mobile and Web platforms independently.

Additionally, I gained experience in graphic design through my involvement in university clubs and organizations. I am disciplined and have excellent time management skills, which have helped me improve my technical abilities and achieve strong results.

TECHNICAL SKILLS (ELECTRICAL ENGINEERING)

Programming Languages

C, Python

CAD Software

AutoCAD

Embedded Systems

Raspberry Pi Pico W, Arduino

Circuit Simulation Tools

MATLAB Simulink, PSpice

TECHNICAL SKILLS (PROGRAMMING/FULL STACK)

UX/UI Design

Figma

Web Development

HTML5, CSS3, JavaScript, Node.js

Mobile Development

Flutter, Dart

Database

MySQL, Firebase

ADDITIONAL SKILLS

Graphic Design

Adobe Photoshop, Adobe Illustrator

Slide Presentation

Microsoft PowerPoint

Video Editing

DaVinci Resolve, Adobe After Effects

Digital Painting

Procreate

3D Modeling

Blender

EDUCATION

2021 - 2025

Kasetsart University

Electrical Engineering

2016 - 2019

Thai-German Pre-Engineering School (KMUTNB)

Civil Construction

COOPERATIVE EDUCATION PROJECT (METROPOLITAN ELECTRICITY AUTHORITY)

Development Of A Web Application For Monitor Garbage Truck Charging Stations And Data Analysis

- Developed a full stack web Application to monitor and analyze data from garbage truck charging stations.
- Utilized html, css, and javascript for the frontend, and node.js with mysql for backend development, enabling comprehensive and in-depth data analysis for efficient usage monitoring.

Development Of A Usage Monitor System For Electric Vehicle Charging Stations Aimed At Sustainable Energy Usage

- Developed a full stack application for monitor data from six types of electric vehicle charging stations on a single dashboard.
- Utilized flutter and dart for building a responsive user interface and firebase for real-time data management, enabling station managers to efficiently monitor and analyze station performance.

Development Of A Cross-Platform Device Control And Monitor System For Mobile And Web Application

- Developed a full-stack application with four integrated systems for control and monitoring of IoT devices.
- Utilized flutter and dart for the mobile application, and html, css, and javascript for the web platform. both platforms were integrated via firebase to enable seamless smart home device management.

UNIVERSITY ACTIVITIES & EXPERIENCE

2023
(2 MONTHS)

Singha Corporation Presents Teenage Fun

Graphic Department (STAFF)

2022-2023
(1 YEAR)

Kasetsart University Student Administrative

Board Bangkheng Campus

Visual Arts Department (STAFF)

2021
(4 MONTHS)

Kasetsart Daily

Graphic Department (STAFF)

2021
(2 MONTHS)

KU Balance Life Club

Graphic Department (STAFF)
